1,100 Persons Killed In Volcanic Eruptions On Bali

Over 75,000 Islanders Left Without Homes

Deluge of Lava Stops After Five Days of Terror

DENPASAR, Bali (AP) — The deluge of lava from sacred Agung volcano was reported to have stopped today after five days of eruption. The governor of Bali said at least 1,100 islanders have perished.

"We have 75,000 homeless people to feed at this point, and we need help from everybody," said Gov. Anak Agung Sutedja.

He said another 200,000 may have lost their livelihood. Thousands of acres of once-fertile rice land lay beneath tons of lava and ash that have blanketed Bali's northeast coast.

100,000 flee Area

An estimated 100,000 Balinese were fleeing the stricken area. Riding and afoot, they carried what possessions they could as they tried to get away from the 10,308-foot volcano which erupted briefly in February after years of virtual quiet, then went into violent action Sunday.

Reports from the disaster area said a heavy column of smoke still billowed from the crater.

A civil defense spokesman in Jakarta said earlier that more violent eruptions were feared, and authorities were trying to clear about 250,000 persons from a radius of 20 miles around the volcano.

A mushroom-shaped cloud of smoke could be seen from aircraft flying into Denpasar, but no ash was visible in this capital, about 70 miles southwest of Gunung (Mount) Agung.

Foreign Tourists Safe

Many foreign tourists were on the island, but all were believed safe. Most of them are staying in Denpasar.

Agung awoke with a roar last month. Its first eruption killed 17 people.

Last Sunday it came back with a second explosion, pushing lava down its slopes and burying hundreds of people under a deadly umbrella of searing ash. The governor said most people were killed by the ash cloud. He said the temperature of the ash was 230 degrees.

People who survived the holocaust at 7 a.m. Sunday said it became as dark as night for two minutes, and the ash choked almost everything.

The governor said hundreds were roasted alive in three villages just south of the mountain as they knelt in prayer.

Refused To Leave Villages

Travelers returning from the area in Bali's northeast reported survivors said many priests and their disciples refused to leave their villages despite the danger.

The governor said many people died in this way in the villages of Sebudi, Sorgah and Sebuh.

The deeply religious Balinese—whose life centers on devotion to a mixture of Hinduism and Buddhism—believe that Gunung Agung is the seat of the gods. To many of them the eruption was a signal the deities were angry.

Denpasar Hospital treated eight patients, all first to third degree.

Board May Let Contract Monday

Greenford to Open School Annex Bids

GREENFORD — The Green-issue last fall.

Board of Education made final arrangements Thursday night to receive bids Saturday for the new elementary-kindergarten addition and other school improvements.

Superintendent of Schools Woodrow W. Bailey said the bids on the general contract combined with the sewage disposal contract, plumbing contract and electrical contract will be opened and tabulated tomorrow.

Contracts are expected to be awarded at a special meeting Monday night at 8:30 at the high school if the offers meet the board's approval.

Construction is expected to begin in early April with anticipated completion by fall when school re-opens.

The elementary addition is expected to take the pressure off the overcrowded high school, Bailey said.

The new sewage disposal system will be installed by the same firm which wins the general contract. The system will replace the present 34-year-old sewage disposal system which has been condemned by state health authorities. Since the community of Greenford has no public sewerage system, the school must provide its own method of disposal which is an added expense not realized by city schools.

Financed By Bonds

The school building and improvements are made possible by the passage of a \$165,000 bond

Measles Vaccine Licensed for Use

WASHINGTON (AP) — In the month has granted licenses for general distribution of two forms of measles vaccine. One may be available in a day or so just as the measles' season gets in swing.

"This is one of our most significant advances in recent years toward decreasing or eliminating one of our most serious childhood diseases," said U.S. Surgeon General Luther L. Terry.

At a news conference Thursday, Terry predicted "a very sharp decrease" in the disease next season.

There have been more than 4 million cases of measles each year in the United States, with 400 deaths, and the disease has been an even greater killer in foreign countries, he said.

With widespread use of the vaccine, Terry said it was possible the disease could be virtually eradicated within two years.

Chas. Pfizer & Co. received a license to market the inactivated or "killed" virus vaccine. Merck, Sharp & Dohme was licensed to market "live" virus vaccine.

Five-Time Killer Dies In Chair

Anticipates Death With Wisecrack

OSSINING, N.Y. (AP) — Five-time killer Frederick C. Wood was executed in Sing Sing Prison's electric chair Thursday night after anticipating death with a wisecrack and a smile.

To the end, Wood repudiated the efforts of persons he termed "do-gooders" to gain him a reprieve.

A derelict who had spent 30 of his 51 years in prison, Wood said he had no wish for further life behind bars.

Instead, he pleaded for an opportunity to "ride the lightning" of the electric chair.

Wood arrived for his "ride" at 10:01 p.m. four minutes later he had come to the end of the journey.

As he entered the death house of the prison 35 miles north of New York City Wood looked around and cracked to the wittiness:

"I have a speech to make on an educational project. You will see the effect of electricity on Wood. Enjoy yourself."

Then laughing, Wood walked to the electric chair with a cigarette dangling from his mouth, brushed the chair off with his hand and calmly told to assemblage:

"I'll be with you in a moment. Wait'll I get through with my cigarette."

He tossed the cigarette to the floor and sat down as guards strapped him into the death chair. He was still smiling when the traditional black hood was lowered over his face.

Lawyers and New York Civil Liberties Committee spokesmen who did not even know Wood fought to the last to save him, contending he was insane. Hours before the execution, three associate U.S. Supreme Court justices turned the appeal down, and Chief Justice Earl Warren refused to

Russians Withdraw 3,000 From Cuba, Kennedy Says

WASHINGTON (AP) — President Kennedy says the Soviets have withdrawn some 3,000 troops from Cuba in recent weeks—and he hopes this is only a starter.

Kennedy told his news conference Thursday that "we are waiting to see whether more will be withdrawn, as we would hope."

But he said the scope of the withdrawal would not be fairly evident until the end of March.

When the Soviet Union promised last month to withdraw several thousand troops from Cuba by mid-March, the U.S. government estimated Soviet military and totaled about 17,000.

Reports On Latin Talks

Kennedy opened the conference by reading a four-minute statement on this three days of talks this week at San Jose, Costa Rica, with the presidents of Panama, Costa Rica, El Salvador, Guate-

mala, Honduras and Nicaragua. Said the President, who flew back to Washington late Wednesday:

"I return from San Jose with increased confidence that we will continue to live in a hemisphere of independent, firm and faithful friends."

Noting that this was his third trip south of the border, Kennedy said that each one makes it clear that Latin Americans "by an overwhelming majority, are ready to work to sacrifice, to fight if necessary, to maintain their own freedom, and to build societies which serve the welfare of all their people."

In the domestic area, two topics were paramount.

No Recession This Year

Kennedy said, "We don't believe that there will be a recession this year," that economic indicators

'Share Income Tax' Measure Introduced

COLUMBUS, Ohio (AP) — A Mount Gilead Republican legislator has introduced a bill to require cities levying income taxes to share the proceeds with other subdivisions in cases where the taxpayer is a non-resident.

Republican Gov. Elmer L. Andersen indicated he might have a statement today on whether the finding would be appealed to the Minnesota Supreme Court. The record showed him loser to Rolvaag by 91 votes.

The judges ordered that, barring an appeal, a certificate to election be issued to Rolvaag on April 1, which would mean he could take office the next day.

That 10-day lag could be shortened should Andersen decide against an appeal and sign a court agreement to that effect.

If an appeal is made, at least another month would be required for the necessary briefs and arguments. This would carry the change in governors well beyond the April 22 adjournment target of

Confronted by his most serious challenge to date, strongman Gen. Chung Hee Park declared anew he will not waiver from his plan to extend military rule for another four years.

About 600 slogan-chanting demonstrators marched the streets of Seoul, demanding that the military junta keep its earlier promise to restore civilian government in August. Police seized scores of marchers.

Park banned political activity in this tense nation March 16 and proposed a referendum on his plan to continue military rule.

The military junta warned in a nationwide broadcast that the armed forces stand behind the government. In a show of force, a vehicle convoy of officers traveled from Park's residence to the defense ministry.

The demonstration in Seoul brought out many civilian political leaders. For the first time, members of the general public joined in.

Police broke up similar demonstrations in Pusan, the nation's second largest city, on the southern tip of the peninsula, and KwangJu, a provincial capital 150 miles south of Seoul. Arrests were made by French secret agents.

The Doctor Says

By Dr. WAYNE G. BRANDSTADT
Questions And Answers

Q—I recently read with alarm that venereal disease was becoming prevalent again. I thought this plague had been wiped out by penicillin.

Is there any way a young person about to be married could feel confident that the other party was not infected? If a 16-year-old girl is found to have syphilis or gonorrhea could it have come from her grandparents?

Dr. Brandstadt answers: Can venereal disease cause congenital defects?

A—It is true that in recent years there has been a marked increase in venereal diseases all over the world. Although penicillin when first introduced brought about rapid cures of both gonorrhea and syphilis, strains of the causative organisms that are resistant to penicillin have developed.

Furthermore, a person who has been cured of either disease may be reinfected.

Anyone who has had either disease and is contemplating marriage owes it to his prospective mate and possible offspring to postpone marriage until he is completely cured.

Many states require a doctor's certificate of freedom from venereal diseases before issuing a marriage license.

Although a woman who has syphilis may give birth to a baby with congenital syphilis, it is most unlikely that this child unless treated and cured could have children.

It is very rare if not impossible for the disease to pass from a person to his or her grandchild.

Gonorrhea does not cause congenital defects, but a woman who has this disease at the time of delivery may infect the baby's eyes at birth.

All states require that drops be put into the baby's eyes at birth to prevent blindness from such an exposure.

Q—Many of my friends sleep in the winter without opening their bedroom windows. They just turn down the heat and open all the inside doors. Is this bad for their health?

A—Since few houses are perfectly insulated, there is some exchange of air even when all doors and windows are closed.

The stronger the wind outside the greater this exchange of air. The amount of cold air a person can stand in his bedroom at night varies with the individual.

Although it is generally advisable to let some air in through a window, the bedroom should not be chilled to the point where a sleeper buries his head under the blankets, or has to pile on so many blankets that their weight causes discomfort and interferes with restful sleep.

The Hole In the Proposition

Everything about the proposal to cut taxes and spend more money in pursuit of a balanced budget cuts across the grain of accepted practice.

But coming now on top of everything else is Walter W. Heller's prediction as chairman of the President's Council of Economic Advisers. He says the country can have a boom by 1965 only if it follows the tax-cutting, higher-spending advice.

It is not like saying the only way to get over the flu is to run to the nearest drug store to buy the latest nostrum.

And is it not like saying the only way to survive a harsh winter is to do thus and so on the advice of some young expert on the care of the body, ignoring the patent fact that before this expert there were other experts with other expertise and the human race survived, either because of them or in spite of them?

NOTHING is necessarily so on the say-so of the latest crop of young experts in Washington. They may or may not know what they are talking about, though when they talk as if they alone knew how to make the nation's economy jump through hoops they tration. It is taking in too much territory.

More and more observers are noting this singular fact about the Kennedy administration—that as a group of individuals and as a mass it is utterly charming, com-

pletely plausible, well-briefed, highly articulate and broad purposeful and at the same time is becoming a victim of its own frustration. It is taking in too much territory.

It commits itself and the country to a tax cut and a budget rise, staking everything on the combination, then runs the risk of being unable to carry out its program. What happens then?

It commits itself and the country to a course of action in Cuba, staking everything on completion of the action, then is obliged to compromise its position item by item until little is left of its original position.

It bases its claim for political favor on the necessity for infusing the nation with a new spirit of derring-do, yet halfway through of yelling "Giddap!" at an economy that didn't know anyone ever had said, "Whoa!"

MR. HELLER may know more about the national economy than anyone else alive.

The question is whether he knows enough about the American people and their way of doing things to say the only way there can be a boom is to swallow his particular nostrum.

Bless the young man. We were having booms and busts in this country before anyone ever heard of him or Lord Keynes either.

How Goes the Economy Drive

The scene is the U.S. Senate, where key decisions must be made about trimming the Kennedy budget if it is going to be trimmed.

The hour is growing late. There has been a delay, due to a clash of opinion about spending the people's money.

Sen. Allen J. Ellender, D-La., was waging his annual battle to save some of the people's money he said would be frittered away on Senate investigations and special activities.

The sum he was hoping to save was piddling compared with the \$98.8-billion budget proposed by the Kennedy administration—a few hundred thousand dollars, perhaps. But he was fighting for a principle.

He hoped to prove the Senate could set an example by lopping off spending he said had no purpose other than the self-aggrandizement of senators who itched to call attention to themselves by running investigations.

He failed.

The Senate whooped through what it never had any intention of cutting.

Ask Someone Who Knows

A list of upward of 40 agencies that have staked out various areas of the human body for research and improvement reveals that

about half of them have come into existence since 1945.

This does not necessarily mean the problems they deal with were neglected before 1945 or are being solved since 1945.

It means the psychology they rely on has been shaping up in their favor since 1945. There is more money to be had for the asking.

This can be dangerous. The benefits that accrue from systematic attempts to really financial resources against some dread disease are sometimes piffling compared with the money that sticks to the fingers of the organizers.

The sticky fingers are not illegal. There is no law that specifies how much money collected in a campaign should go directly to the purposes for which the campaign was waged. There is no law that says there must be a bona fide means for spending the money before it is collected.

There is only circumstantial evidence of bad faith when most of the money collected goes into the collectors' pockets.

The giver has only one source of protection—the knowledge of people who work professionally in related fields of fund-raising.

Before giving away money on someone's say-so, ask someone who knows about the reliability of the say-so.

By Truman Twill

In a world that knows what to do with people who use money in this manner. The world takes the money, then turns in disgust against the sycophant who tried to fawn on it.

The tragedy is the way this misrepresents the American people as a whole. It reflects nature of the kind of people who misrepresent the rest of us in government—materialists who will do anything for money themselves and therefore think they can buy everybody else, too.

These lightweights are willing to bribe it through on this line if it takes all this century. They will spend whatever it costs, if it takes our last 10 billion to do it.

They will cross the palms of every fawning mendicant on earth. They will buy off every footpad and dog robber. They will treatre the skids for international cooperation with oily assurances for everything our money can buy.

We think the time has come to see how these boys shape up if we cut down their allowance.

We think this is the moment to tell the fellows at the other end of the bar that Uncle Sugar has bought his last round and is hopeful this won't make any difference in the way they feel about him.

We think it's time to push the birdlings out of their billion-dollar-lined nest to test their wings. If they can't fly, we'll find replacements.

Welcome aboard, shipmate. And give our regards to the family.

COTTON CORNERS UNCLE GEORGE

Official Says Castro Is Exporting Communism

By DAVID LAWRENCE

The U.S. government spends billions of dollars to get intelligence information from foreign countries, and it has concentrated particularly in trying to find out how much subversion and infiltration by the Communists has been going on in Central and South America. At last the facts are coming out authoritatively.

John A. McCone, director of the Central Intelligence Agency, now has told Congress what Castro is doing to "export" communism from Cuba. President Kennedy has said that it is the firm intention of the United States to prevent such "export" from becoming effective. Mr. McCone said in his statement to a House committee:

"The public pronouncements of Cuban leaders, the daily record of events in Latin America, and reports from our intelligence sources within Communist and other leftist extremist elements throughout this hemisphere all agree on

one salient conclusion: that Fidel Castro is spurring and supporting efforts of Communists and other revolutionary elements to overthrow and seize control of the governments in Latin America."

"Even before the October missile crisis—and with increasing rancor since then—Cuban leaders have been exhorting revolutionary movements to violence and terrorism, and supporting their activities."

"CUBAN SUPPORT takes many different forms; but its main thrust is in the supply of the inspiration, the guidance, the train-

ing to more nationals from Venezuela than from any other country. Our best estimate now is that more than 200 Venezuelans received such training in 1962."

"Leaders of the militant groups in Venezuela, Brazil and Peru who have gone to Cuba seeking assistance have been told by Cuban leaders that Cuba is willing to furnish funds, training, and technical assistance."

Mr. McCone said that, while the amount of identifiable quantities of weapons being sent to Latin-American insurgents is not at present significant, he has no reason to believe that it will not increase. He added:

"Cuban financing of subversive operations in Latin America is generally effected by couriers carrying cash."

Mr. McCone gave several examples of this type of operation. He continued:

"One of the most important Communist assets in Latin America is a large number of Communist-bloc diplomatic and Cuban missions. These missions are used to further Communist subversive activities even in countries where there are no bloc diplomatic missions."

"The Soviets, and in some cases some satellites as well, have diplomatic missions in Mexico, Brazil, Argentina and Uruguay. The U.S.S.R. maintains relations with Bolivia but has no resident mission there. Cuba maintains embassies in Mexico, Brazil, Bolivia, Uruguay and Chile."

Members of Congress are wondering whether, in view of these authentic reports, the United States is fulfilling its promise to prevent the "export" of communism and the sending of Soviet-trained personnel from Cuba to infiltrate the governments and subvert the economy of the various countries in Latin America.

Testifying recently before a House subcommittee on foreign affairs, Edwin M. Martin, assistant Secretary of State for Inter-American Affairs, made the following statement when asked about the future policy of the United States:

"I would suppose lastly we are determined in the spirit of the Punta del Este resolution which declared that a Communist regime is incompatible with the inter-American system, to see it, in association if possible, but alone if it becomes necessary, that no further Communist regimes get established in Latin America."

REP. GROSS, R-Iowa, then engaged in this colloquy with Mr. Martin:

Mr. Gross: "Then you have no timetable for the surgery necessary to remove this cancer?"

Mr. Martin: "No, sir."

Mr. Gross: "Aren't you disturbed by the fact that the cancer can overcome the Central and South American area before the government falls in Cuba?"

Mr. Martin: "No; I think we feel we are making progress in this regard. It is a matter of con-

cern, but we think the operation might well worsen the condition of the patient and it would also raise global problems which would worsen the position of the United States from a world security standpoint."

Mr. Gross: "We are right back where we started from—"

Mr. Martin: "On this particular question, that is correct. I think the President has made that quite clear a good many times."

Mr. Gross: "As far as I am concerned—and I don't want to argue with you—I don't think we have a policy. I think the President is playing this thing by ear and from hour to hour and day to day. I don't think this government has a policy with respect to Cuba. I think the only policy that we have is one of hope for the best and fear the worst."

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Our son is

18 months old. He has a nasty habit of biting people. Not only does he bite his playmates, he also bites his father and me.

We have tried various punishments and nothing worked. Last week, out of sheer frustration, I bit him back. This seems to have cured him, temporarily at least.

But how can I take him out in public or to the home of friends? If he should bite, I can't bite him back in the presence of others. They would think I was crazy.

Please tell us what to do. — OLAHTE, KANSAS.

Dear Olahte: It's not abnormal for an 18-month-old child to bite. If his biting is combined with other symptoms of meanness, however, it could suggest real trouble ahead.

Perhaps there is antagonism between you and your husband. The child may well interpret snarling and snapping which he witnesses as a desire on the part of his parents to bite one another.

Please stop biting the child—in private or in public. Simply isolate him when he bites. He'll know he is being punished. If he is not cured of the habit within two months, consult a professional.

Boorish Brothers

Dear Ann: My wife has five brothers. Her mother passed away two years ago and her father has been in poor health ever since. He is 72 years of age and needs someone with him constantly. His housekeeper has given

notice that she is leaving within 30 days.

My wife's brothers say that if they can't find a suitable housekeeper for their father (he's so hard to please) we must take him into our home. According to them, it's the daughter's place to take in aging parents, not the sons'. Each of them has made it clear their wives would not stand for it.

My wife has a serious heart condition and is physically unable to take care of her father here. Please tell us what to do. She is a nervous wreck from all the phone conversations. Each of her five brothers calls every day and repeats, "It's your duty!" — TURMOIL.

Dear Turmoil: The notion that it's more a daughter's duty than a son's to care for his aging parents is a neat bit of fiction. The responsibility should be shared by all children.

The solution lies in getting a competent housekeeper. If there is no alternative, hire a practical nurse. The expenses, of course, should be split six ways.

Town's Do-Gooders

Dear Ann: A family in our neighborhood has two sons and a station wagon. The parents have nothing to do with adults but they love children.

They often have outings for the neighborhood kids which some of the parents think is quite wonderful.

This is what they do: They send a permission slip for the parents to sign. This slip tells exactly

how much money the child should be given to pay for his ticket, if they are going to a circus or a have planned a picnic the child is told what food to bring, as his share.

My husband thinks these people are doing us a favor by just taking the children (who love it). I feel it is cheap of them to invite the neighborhood kids and expect them to pay their own way. Do you? — IRKED.

Dear Irked: Sorry, I'm with your husband. It's admirable that this generous couple is willing to spend their time and energy entertaining the neighborhood kids.

I see no reason why the neighborhood children should have their way paid, too. I suggest that you parents get together and entertain the lovely couple occasionally to show your appreciation.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

Bidault

organization which has been ordered dissolved because it is plotting against the security of the state. This is not a capital offense. He has not been accused of trying to kill De Gaulle, a crime punishable by death.

Bidault has been under German police guard since he was discovered 12 days ago living with two German journalists in a hilltop villa in this Bavarian village.

He has had no rendezvous with anybody not allowed by the police.

If there still are CNR or secret army men in Bavaria, they apparently have had no direct contact with Bidault since he was found.

Correspondents who have seen Bidault here get the impression that he may have become only a figurehead in the organizations.

Bidault is a former premier and a former foreign minister of France. He headed the wartime resistance against the Nazis while De Gaulle was out of the country. As such, he still has appeal to numerous Frenchmen.

But active leadership of the CNR may have passed elsewhere—perhaps to Jacques Soustelle, another former minister in De Gaulle's government, who is reported hiding in Portugal. Soustelle is a younger, more energetic man.

The Bavarian government says a final decision on Bidault will come this weekend or early next week.

Among the others at Cliveden at the time, he said, were Dr. Stephen Ward, an osteopath.

"Between July and December 1961, I met Miss Keeler on about half a dozen occasions at Dr. Ward's flat," Profumo said.

"Miss Keeler and I were on friendly terms. There was no impropriety whatever of any kind in our acquaintanceship."

Christine's discarded Jamaican boy friend, John Edgecombe, 30, tried in January to shoot his way into the apartment she shared with a girl friend.

He was sentenced last Friday to seven years in jail for possessing a firearm with intent to endanger life. But Christine failed to appear as a prosecution witness and a charge of shooting at her with intent to murder was dismissed. The court wants her to explain why she didn't appear at Edgecombe's trial.

Psychiatrists had pronounced Wood legally sane during his prosecution, but attorney Norman Dorsey contended in a last-ditch appeal that there was enough evidence of insanity in Wood's history to indicate he was insane.

Dorsen, a New York University associate professor of law, filed a petition in Washington asking Supreme Court Justice John Harlan to stay Wood's execution to permit a sanity hearing. Harlan turned it down without comment.

In a letter from Sing Sing's death row, Wood had declared:

"I have had three stays of execution thus far, one automatic (beyond my control) and two effected by well-intentioned lawyers, as 'do gooders.'

"I want no more. I really want to ride the lightning. I do not welcome any intrusion into this stinking case of mine."

Wood was condemned for beating to death John Rescigo, 62, Thurs. day at the Salem City Hospital where he was admitted early yesterday after being stricken ill at home.

Born here July 23, 1905, she was the daughter of Rose Woods Spooner of East Palestine and the late Joseph Spooner.

finally that Secretary McNamara is a very effective secretary of defense and that we are lucky to have him."

Willing To Make Decision

Kennedy said McNamara "is willing to make hard decisions" and doesn't mind "that a good many people don't like it." The President said McNamara rejected an appeal by Kennedy's own brother, Sen. Edward M. Kennedy, D-Mass., concerning a contract award.

Also in the domestic field, the President said there is nothing to report that Postmaster General J. Edward Day will resign before 1964 election.

The President's hopes for a nuclear test ban agreement with the Soviet Union "are somewhat dimmed" but he said the United States will continue working toward that end "because personally I am haunted by the feeling that by 1970, unless we are successful, there may be 10 million clear powers instead of four, and by 1975, 15 or 20."

7 — Span Bridge Planned

Division Deputy Director Earl W. Nelson said that the new structure will be 538 feet long with seven spans to carry U.S. 62. The bridge will cross four tracks of the Pennsylvania Railroad and will eliminate traffic congestion on Route 62 (W. State St.) caused by trains stopped on the crossing.

Contract price for the three-tenths of a mile project is \$673,481 with engineering and right-of-way bringing the total cost to \$1,185,230. Nelson said that Wayne Goodballe will be the project supervisor for the highway department during construction.

A special meeting of City Council has been called for 5:05 p.m. today for the introduction of an ordinance authorizing and directing the service director to enter into a construction contract with the Pennsylvania Railroad.

Tax

(Continued from Page One)

— the Senate defeated a bill, the first of the session.

The bill, which would have permitted appointment of local boards of trustees for state university branches, got 14 yes votes to 12 no, but 17 votes are required to pass a bill in the Senate—a majority of members elected to the 33-member body.

It appeared likely majority Republicans would make an effort at next week's sessions to revise the measure when full GOP attendance is on hand. Four Republicans were absent Thursday. One of the bill's sponsors, Sen. Ross Pepple, R-Allen, voted against the bill in an apparent effort to be in a parliamentary position to move for reconsideration next week.

After the bill's defeat, Majority Leader C. Stanley Mechem, R-Athens, yanked a companion measure off the floor to prevent its defeat. The second bill would give trustees of branch universities authority to present tax measures for support of the branches of the electorate.

The House wound up its week with routine measures, including approval of a \$100 fee for out-of-state chiropodists to practice in Ohio.

But the recount judges found the actual tally was: Rolvaag 619,842, Andersen 619,751. And they said in one paragraph of the decision that the recount was "as accurate and reliable as any could be."

Miss Patricia Wyss, 17, daughter of Mrs. Thelma Wyss of RD 2, Beloit was treated for an injury to her right elbow at Alliance City Hospital Thursday at 11:35 p.m. and released. Miss Wyss said she was injured in a three-car accident at the intersection of Route 80 and Georgetown Rd.

Cincy Battles Oregon State In NCAA Tourney Tonight

By DON WEISS
Associate Press Sports Writer

LOUISVILLE, Ky. (AP) — Cincinnati meets Oregon State and Chicago Loyola plays racehorse with Duke's Blue Devils tonight as basketball's big three and an upset that could steal it all reach the showdown stage in the National Collegiate championships.

Cincinnati, top-ranked nationally and seeking a record third straight NCAA championship,

Weaver Looks Sharp, Tribe Triumphs 7-2

TUCSON, Ariz. (AP) — Floyd (Tex) Weaver, a Cleveland right-hander up from Salt Lake City, has moved a step closer to the big time.

"I was very much impressed by him," Manager Birdie Tebbets said Thursday after Weaver got credit for the Indians' 7-2 victory over the Chicago Cubs in Mesa.

Weaver blanked the Cubs on two singles over the first five innings. Tebbets couldn't say flatly, however, that the rookie has made the team because Cleveland has so many veteran righthanders.

Right-handers Joe Schaffernoth and Barry Latman also pitched well in Cleveland's fourth straight conquest of Chicago. They allowed three hits between them. Chicago got both its runs off Schaffernoth in the sixth inning on Nelson Mathews' triple.

Rookie Vic Johnson continued to wield a big bat for the Tribe. He smashed two singles and a double and raced back to the wall for two sparkling catches. Catcher John Romano also had three hits.

Scarabs Post 24th Straight 7 Regional Tilts Scheduled Tonight

By JOHN ARIMOND

COLUMBUS, Ohio (AP) — The march along heartbreak highway to Ohio's treasured high school basketball championship resumes tonight with 24 teams battling it out in seven cities for the regional laurels.

Tonight's skirmishing, all first round events, are preliminaries to the finals Saturday night for the titles in three of the four Class AA regional tournaments and three of the four Class A regionals.

The fourth Class AA regional crown has already been picked up. Cleveland East Tech captured that bid for the sixth straight year with a crushing 66-44 victory over Warren Harding Thursday night. The Scarabs of East Tech, state champs in 1958 and 1959, will be one of the four big-school quintets who will go to Columbus next weekend in quest of the top prize of them all, the state championship.

Another regional, this one in Class A, got underway at Canton Thursday night. Adena's Golden Wave and the Tigers of Petersburg Springfield Local defeated their first round opponents and play for the Northeast Regional title Saturday afternoon.

Tigers Triumph 68-63

The Golden Wave (21-4) downed Lorain St. Mary (17-4) 58-54 on Jim Dalrymple's 20-point effort and the Tigers (20-3) squeezed past Mogadore (19-4) for a 68-63 victory.

The Scarabs' victory was their 24th without a defeat. They were paced by Jim Robertson's 22 points in handing the Black Panthers

ers their fourth defeat in 25 games.

Tonight the Scarabs can sit back and watch, along with the multitude of Buckeye roundball fans, to see what three teams will join East Tech as the quartet that will appear in Ohio State's St. John Arena next weekend.

A real battle is expected in the Class AA regional at Cincinnati where two undefeated squads, a one-game loser and a thrice-defeated quintet meet tonight. Mid-dtown, the state's top-ranked team in the Associated Press' final Class AA basketball poll, brings a 230 record into its fray with Urbana (22-1). In the other game, third-ranked and undefeated Dayton Chaminade (23-0) and Cincinnati Elder (20-3) meet head-on.

Canton McKinley Plays Tonight

In the Northeast Regional at Canton, Portsmouth (16-5) battles Columbus East (21-1) and Zanesville (18-4) goes against Canton McKinley (19-3). And in the Northwest, Marion Harding (21-2) and Toledo Central (21-1) meet at Bowling Green while Elyria (17-6) and Lima Senior (10-10) collide at Toledo. The winners of the latter two games meet at Toledo Saturday to decide the Northwest Regional crown.

Likewise, all the other regional titles will be decided Saturday.

The little giants of Class A will provide the small school fans plenty of action as well.

At Athens, Beaver of Pike County (22-2) runs up against Circleville Logan Elm (17-4) and Green Township (23-2) of Scioto County puts its hopes on the line against Dresden (22-2) for the Southeastern Regional crown. The Southwestern Regional tourney at Troy has Seven Mile (12-9) pitted against River Valley of Marion County (17-5) and Jackson Center (21-3) meeting Sabina (21-2).

Fighting for the Northwestern Regional honors is York of Sandusky County (22-2) versus Gomer (18-5) and Wakeman Western Reserve (20-3) versus Pettisville (19-5).

Davey Moore Seriously Injured, Losses Featherweight Title To Cuban Ramos

By JACK STEVENSON

Associated Press Sports Writer
LOS ANGELES (AP)—Former champion Davey Moore was in a coma suffering from "a serious head injury" and his chances of living are poor, a hospital physician said early today after the former champion lost his title to Sugar Ramos in one of three title fights here Thursday night.

Dr. Philip Vogel reported the former featherweight champion was in a deep coma.

"His chances are extremely poor," Dr. Vogel said. He added that Moore had suffered general injury to the mid-brain area and said that Moore's fate probably will be known within the next 12 hours.

No brain operation was contemplated.

All three boxing titles up for grabs had new owners today after a pair of spectacular knockouts and a controversial decision in the ballyhooed triple championship fight extravaganza.

26,142 Fans On Hand

A crowd of 26,142 watched as Ramos won the featherweight title in the middle bout by kayoing Moore—who was taken by ambulance to a hospital about an hour

after the fight. He was unconscious and X-rays were taken.

In the opener at Dodger Stadium, Luis Rodriguez took the featherweight championship away from Emile Griffith on a decision—unanimous but subject to argument. In the windup Roberto Cruz wound up and knocked out Battling Torres in the first round and won the vacant junior welterweight title.

The doctor described Moore's injury as a contusion, more serious than a brain concussion.

Boxing officials, including Moore's manager, Willie Ketchum, who had asked the bout be stopped, kept vigil at White Memorial Hospital.

Loses Early Rounds In Bout

Ramos, who lost the early rounds, smashed Moore down in the 10th round and had him draped over a rope and helpless as the round ended.

In his dressing room, the de-throned 126-pound king said "I'd like to fight him again," then, some time after, was taken by ambulance to the White Memorial Hospital. The 29-year-old Moore was rolled out of his dressing room on a table.

Ramos, who fled from Cuba and

now makes Mexico City his home, remained undefeated, winning his 41st fight. The two boxers each weighed 125½ pounds for their blistering battle.

Griffith, ironically, was involved in a fatal fight almost exactly one year ago. He regained his welterweight crown last March 24 at New York's Madison Square Garden by stopping Benny (Kid) Paret, who died of brain injuries suffered in the bout 10 days later.

Rodriguez, an ex-Cuban who now calls Miami, Fla., home, boxed his way to the unanimous verdict over the harder-hitting Griffith.

"I can't understand it," Griffith moaned. "He didn't hurt me once and I hurt him several times. Rodriguez wouldn't stay in there and fight. He kept running."

The new 147-pound champion who weighed 146 to 145½ for Griffith, explained, "I planned to keep moving around and use the left jab and hit him in the stomach. The plan worked perfectly. Griffith never hurt me any time."

Judges Score For Rodriguez

Referee Tommy Hart scored the bout 9-5, Judge Lee Grossman 8-5 and Judge John Thomas 8-6 all for Rodriguez. The Associated

Press scored 8-4 for Griffith.

Cruz, a 21-year-old, was an underdog like Ramos, with odds of 2½-1 against him. But hardly had the crowd settled down after hearing the national anthem of Mexico and the fight was over.

The Filipino said he knocked Torres down first with a right and then twice more with left hooks. The final one came whistling under perfect execution and Torres went flat on the canvas taking a full 10 count. Cruz weighed 138½ to 140, the junior welter limit, for Torres.

Albie Pearson, the littlest Angel from Manager Bill Rigney.

of them all, looks like he's overmatched every time he picks up a baseball bat. The way Pearson's been swinging lately, the bat must feel like a baton.

Pearson, 27, who stands just over 5-foot-5½ and weighs in at

141 pounds after eating, whipped the bat around at the Los Angeles

camp again Thursday, leading the Angels to their seventh consecutive exhibition victory, 5-3 over

San Francisco at Palm Springs, Calif. He stroked three hits, one

a triple. Pearson also stole two bases, which brought quick smiles

Elsewhere. Al Kaline hit two Chicago White Sox at Sarasota, homers as Detroit crushed Baltimore 11-1 at Lakeland. Cincinnati's Tommy Harper hit a pair checked the Chicago Cubs 7-2 at Mesa, Ariz.

Canisius, Providence Advance To Finals In NIT Tournament

By JIM HACKLEMAN

Associated Press Sports Writer
NEW YORK (AP)—A Turtle who treed a Wildcat is the newest—and perhaps most improbable—member of the National Invitation Tournament's starring ranks.

And the harassing job Pat Turtle, barely recovered from a broken ankle, did on hot-shooting Wally Jones of the Villanova Wildcats has to be the key reason Canisius is in Saturday's championship game in the 26th annual basketball classic.

With Jones going without a point

in the last 16 minutes, the Griffins steamed past Villanova 61-46 Thursday night before a packed house of 18,429 at Madison Square Garden and gained the final along with Providence.

Fast-firing Ray Flynn again paced the Providence Friars,

sparking a second-half burst that powered them over Marquette 70-64 in the first match of the semifinal doubleheader.

Turtle, a 5-foot-11 Canisius senior who suffered a right ankle fracture in practice Feb. 5, was idled from then until this past Tuesday night when he played

very briefly in the Griffins' 76-67 quarter-final victory over Memphis State. He went in against Jones after the tricky Wildcat had scored 24 points, with Villanova ahead 35-31 and 16 minutes to go.

With Turtle putting a shell around Jones, Villanova's offense foundered and the inspired Griffins rolled. They exploded out of a 40-40 tie at the midway mark of the second half, getting fine scoring from Bill O'Connor, Tony Gennari and sub Frank Swiatek, and smothered the Wildcats 21-6 over the last 10 minutes.

Flynn poured in 13 of Providence's 16 points and set up another basket with a steal during a second half surge as the Friars won their 14th straight.

Social Events In Lisbon Area

By ETTA MAE ALEXANDER
The Christian Women's Fellowship of the First Christian Church met Wednesday evening at the church, with Miss Helen Gillis, president of the May Pritchard Circle, presiding.

The committee composed of Mrs. Jack Stockman, Mrs. Harold Adams and Mrs. William Loudon, presented a new constitution and by laws for the group in the process or re-organization, and they were accepted.

Officers elected to assume duties July 1 are Miss Nellie Gillis, president; Miss Meretta Ikrat, vice president; Mrs. Robert McCamom, secretary; Mrs. Edgar Kirk, treasurer; Mrs. Raymond Moore, worship director; Mrs. Nels Scheel, study director; Mrs. Harold Adams, service director.

The C. W. F. will be made up of two groups—the Phala Moore Circle, which will meet the third Monday of each month, and the May Pritchard Circle, the first Tuesday of each month. A combined meeting of the two groups will be held four times a year, the next meeting to be June 19.

Mrs. George Bordine and Mrs. Stockman had charge of the program and worship service for the evening, using the Easter theme.

The refreshments served were in charge of Mrs. Nels Scheel, president of the Phala Moore Circle.

TWENTY-EIGHT members and guests of the Christian Home Builders Class of St. Jacobs United Church of Christ, were entertained Wednesday evening at the home of Mr. and Mrs. Ralph Cook of Greenfield.

Homer Ferguson, president, presided at the business meeting.

The Easter theme was the worship topic for devotions, led by Mrs. Russell Forney.

Games and the social entertainment were arranged by Mr. and Mrs. John Schnader.

On April 17, the class will be received by Mr. and Mrs. Schnader of Salem Road.

IVA Chapter of O.E.S. met Wednesday evening at the Masonic Temple, with Mr. and Mrs. Ray Beers, worthy matron and patron, presiding.

Future activists of IVA Chapter announced are: April 23, friendship night as guests of Homeworth Chapter, the home chapter of John Liber, worthy grand patron of Grand Chapter of Ohio; inspection of IVA Chapter, April 30; the annual smorgasbord, Thursday, May 2.

Mr. and Mrs. Isaac Skeels and Mr. and Mrs. James Wilson acted as tellers for balloting on an honorary membership.

Serves 13½ Million Passengers Yearly

Huge Chicago Airport Almost City In Itself

By EDWARD S. KITCH
CHICAGO (AP) — The world's busiest airport, Chicago's O'Hare International, is an immense jet-tires dedication ceremony Saturday.

age layout that has become almost a city in itself.

When President Kennedy at O'Hare has become an air

ursday, he will find a sprawling 7,200-acre installation that serves 13 million passengers a year and handles nearly a flight a minute on the average. Located 21 miles northwest of downtown Chicago, the airport has parking facilities for 5,700 cars and can feed 1,500 persons at a time in its biggest restaurant.

It represents a \$200-million investment.

The airport has become an air

crossroads of the world. Nonstop service is provided to many foreign cities. Seven foreign airlines and 14 domestic airlines use its facilities.

With more than 400,000 flights last year, O'Hare surpassed New York's Idlewild Airport traffic of 11,510,390 passengers and 290,133 flights.

The present development — two million glass-steel circular restaurants featuring a seven-continent dining room was financed by \$149 million worth of revenue bonds.

The terminal buildings, each 750 feet long and 110 feet wide, were built at a cost of \$35 million. They are connected to six 800-foot concourses with 58 plane gates.

The arm-like concourses have highly mobile enclosed ramps called jetways which reach out to airliners and telescope away when not needed.

O'Hare was named for Edward H. (Butch) O'Hare, a World War II hero.

Named by President Roosevelt one of the greatest combat fliers in aviation history, O'Hare shot down five Japanese bombers and damaged a sixth in single-handed action over the Pacific, Feb. 20, 1942, saving his carrier. He received the Medal of Honor from President Roosevelt. O'Hare disappeared in night action over the Pacific Dec. 10, 1943.
